CONSTRUCTION SERVICES

We offer construction services for Commercial & Residential projects based upon the following principal areas:

Project Management: using an industry specific PM software as the basis for our systems allows for the exchange of information necessary for project delivery.

Scheduling: a detailed plan is critical for delivering any product; we identify critical path elements and monitor on a regular basis and encouraging Subcontractor participation.

Project Cost Control: we maintain financial control of the project by tracking job cost per code; regular forecast are generated to ensure financial objectives are met.

Record Documents/Logs: Submittal/Shop Drawing, Request for Information, Change Order Request, Schedule & Delay (Weather)Logs, Meeting Minutes, Field Directives & Architect's Supplemental Instruction (ASI) are maintained for every project.

Contract Formats: We can deliver (contract) via Lump Sum, GMAX or negotiate, using AIA, AGC or proprietary formats as required.
